# VISIONNAIRE

Success Case

Outsourcing of IT Professionals for the Development of an AI Solution for Dentists
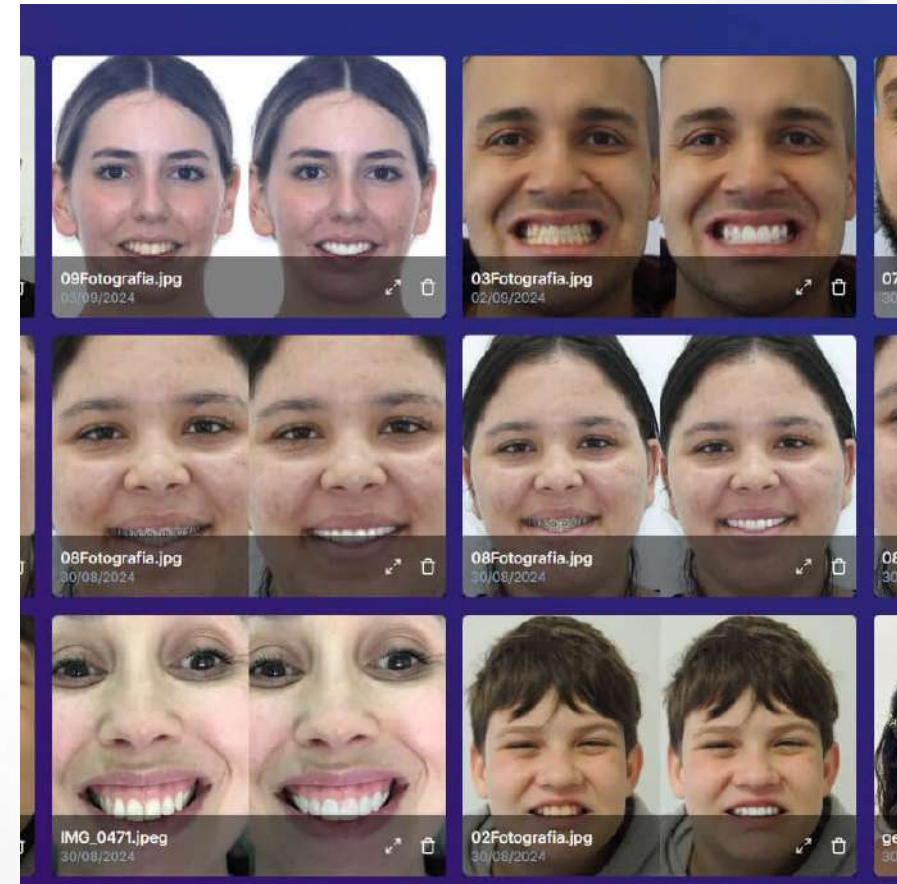

Problem

Dent.AI needed analysis, refinement, specification, and development of an advanced system that uses Artificial Intelligence to generate forecasts of clinical and aesthetic treatment results.
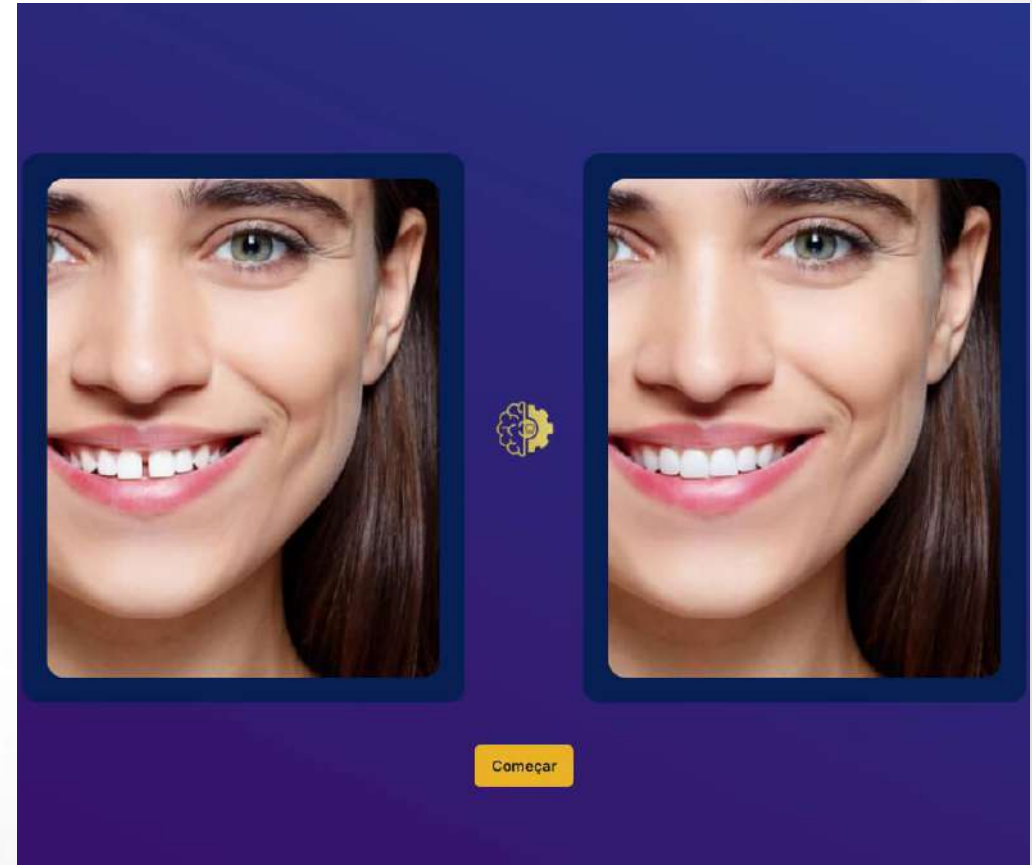

VISION**N**AIRE

Solution

Visionnaire, through Outsourcing of specialized professionals, developed a solution that uses AI to generate treatment forecasts in seconds, benefiting both professionals and patients.
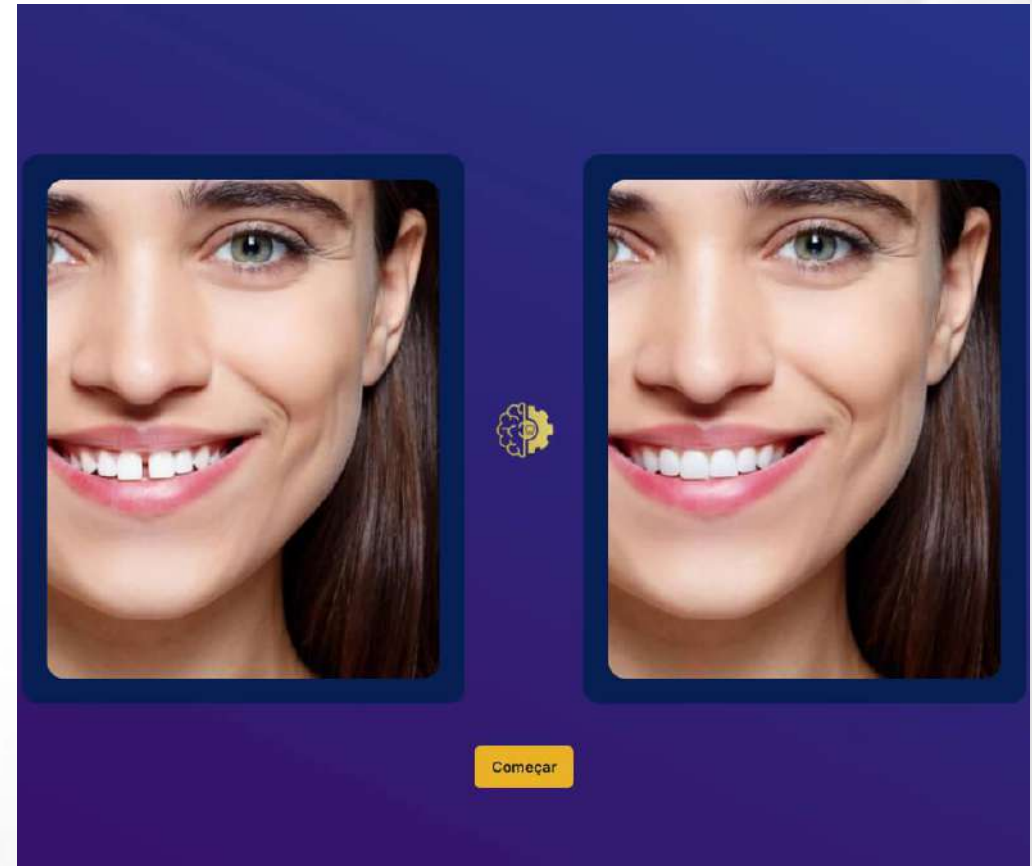

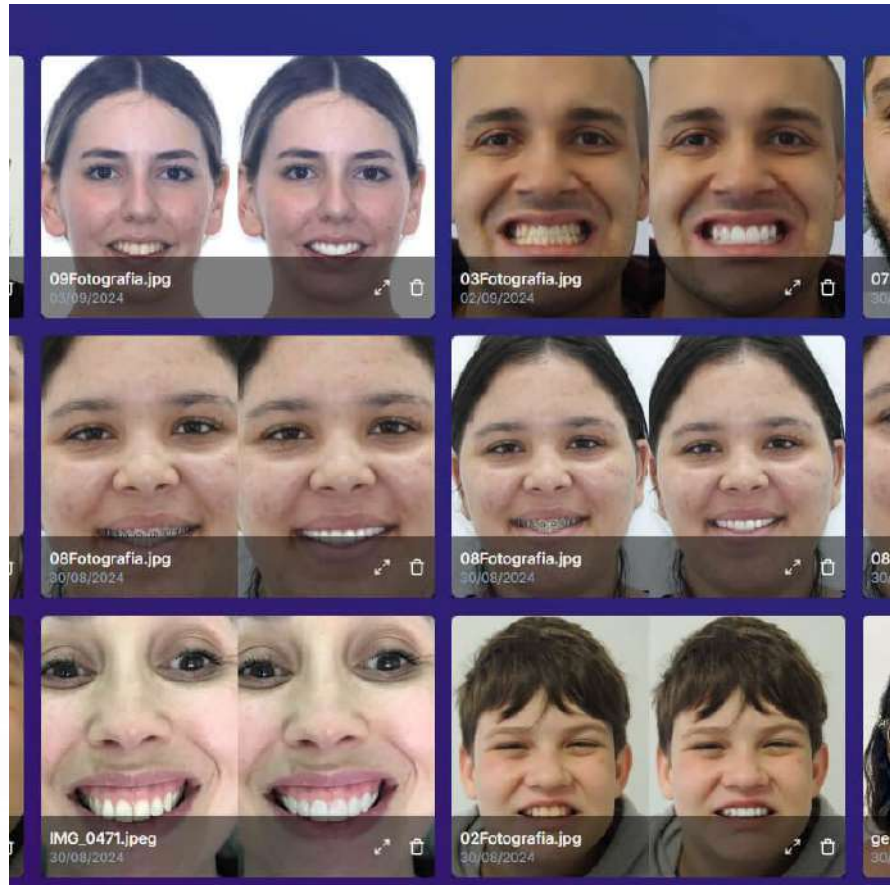

VISIONNAIRE

Results

An advanced solution that uses modern Artificial Intelligence technologies and provides results in seconds, benefiting professionals, patients, and clients alike.
