

VISIONNAIRE

Success Case

Development of an AI Agent
for Agile Customer Service

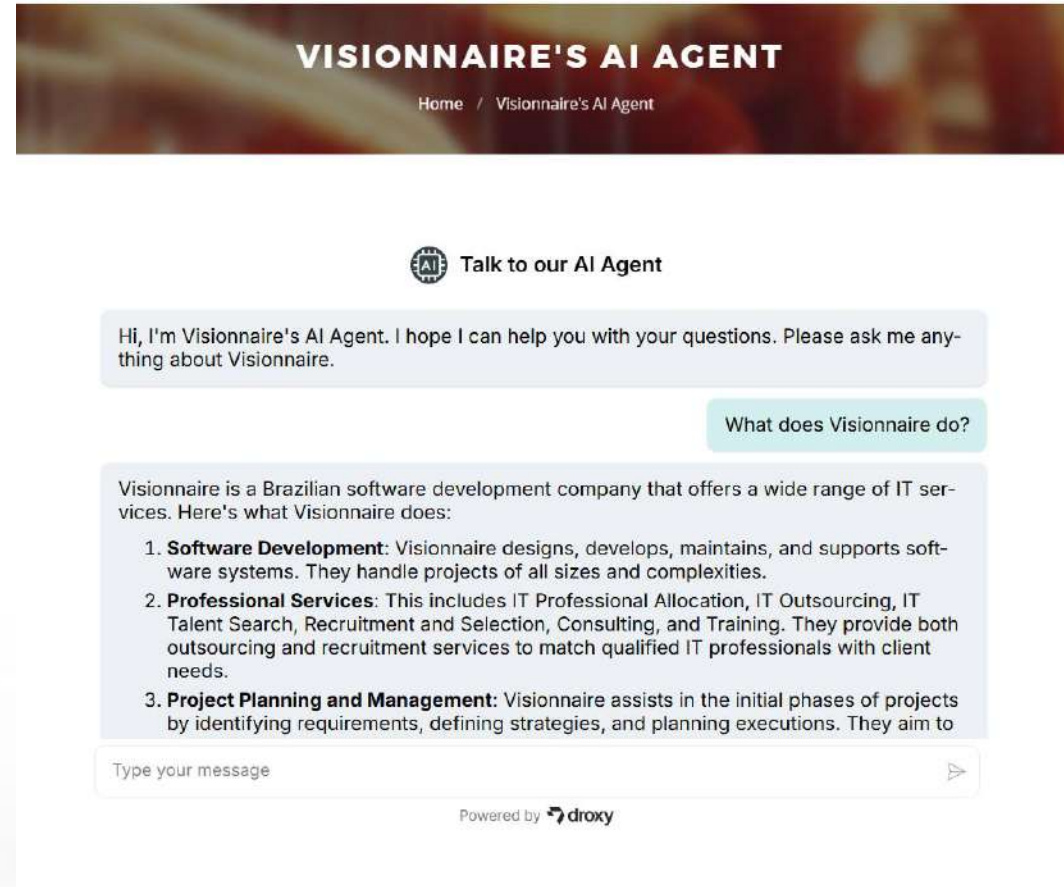

Problem

To develop an advanced chatbot that elevates the level of service for leads, clients, and anyone interested in learning more about Visionnaire and its services, utilizing cutting-edge AI technologies.

Solution

Visionnaire developed, in record time, a sophisticated Artificial Intelligence Agent ready to address all questions and inquiries about our services and offers. This virtual partner enables more seamless and efficient interactions with our company while being adaptable for various businesses.

The screenshot shows a web interface for 'VISIONNAIRE'S AI AGENT'. At the top, there is a navigation bar with 'Home / Visionnaire's AI Agent'. Below this is a button labeled 'Talk to our AI Agent' with an AI icon. The main content area displays a chat conversation. The AI agent's message reads: 'Hi, I'm Visionnaire's AI Agent. I hope I can help you with your questions. Please ask me anything about Visionnaire.' The user's question is: 'What does Visionnaire do?'. The AI's response states: 'Visionnaire is a Brazilian software development company that offers a wide range of IT services. Here's what Visionnaire does:' followed by a list of three services: 1. **Software Development:** Visionnaire designs, develops, maintains, and supports software systems. They handle projects of all sizes and complexities. 2. **Professional Services:** This includes IT Professional Allocation, IT Outsourcing, IT Talent Search, Recruitment and Selection, Consulting, and Training. They provide both outsourcing and recruitment services to match qualified IT professionals with client needs. 3. **Project Planning and Management:** Visionnaire assists in the initial phases of projects by identifying requirements, defining strategies, and planning executions. They aim to... At the bottom of the chat area, there is a text input field labeled 'Type your message' and a 'Powered by droxy' logo.

Results

The AI Agent accelerates customer service and offers benefits such as operational cost reduction, 24/7 availability, and personalized interactions tailored to each company's specific needs.
